

So that all may see

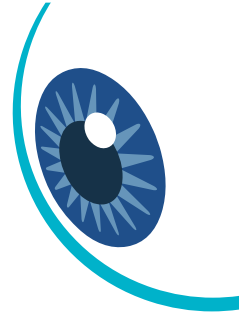

LV Prasad Eye Institute

**LVPEI
UVEITIS
COURSE 2.0**

Course starts: 06 January 2023
Every Friday 19:00 IST (13.30 GMT)

Learn in a whole new way

ABOUT THE COURSE

All of us have read chapters on uveitis during our ophthalmology training and heard wonderful talks on the subject in meetings and conferences. Yet, while sitting across the patient in the clinic, we feel baffled by the mix of clinical signs and symptoms that the patient presents to us. Often, the result is a list of all-too-familiar investigations followed by a prescription of medications that hardly do justice to the vast information that is available in the field. The LVPEI Uveitis course 2.0 will act as a bridge between your knowledge of uveitis and the patient in the clinic. It will help you identify different patterns of uveitis through clinical observation and judiciously use laboratory investigations and various treatment options. You had learnt the science behind uveitis, now you will know the art too!

OBJECTIVE OF COURSE

To assist the participants in applying the knowledge of uveitis into clinical practice

SPECIFIC OBJECTIVES

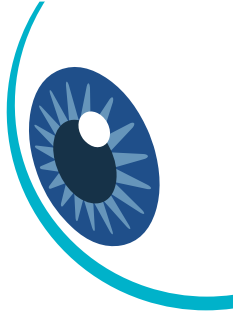

- Identify various clinical signs of uveitis
- Learn to classify uveitis into broad groups for systematic management of patients
- To apply imaging tools in defining different patterns of intraocular inflammation
- To develop rational use of laboratory and radiological investigations
- To understand the application of diverse treatment choices in uveitis

WHO CAN TAKE THE COURSE

- Anyone willing to deep-dive into uveitis
- Residents and fellows in training looking for answers to their 'basic' questions in uveitis
- Early-career practitioners looking for a head start in uveitis
- Mid- and Late-career practitioners who want to refresh their knowledge of uveitis

COURSE STRUCTURE

The course is divided into twelve modules, each covering a key topic in uveitis. Each module will be covered in three sessions on first, third and fourth Friday of every month. The individual sessions will be as follows:

Preparatory reading:

2-3 important book chapters/review papers that will be Shared with the participants to get them initiated into the topic.

Week 1:

“U and I” session (120 min). The topic will be introduced to the participants through a conversation between two faculty, in which clinical signs and approach to diagnosis and treatment will be discussed.

Week 3:

Special Interest Group meeting (90 min). Two external faculty and LVPEI faculty will join to discuss key questions on the topic, including those pre-submitted by the participants.

Week 4:

International grand rounds (60 min). One case each will be presented from LVPEI and a major uveitis center in a different part of the world.

Each of the sessions will conclude with Q & A with the participants through questions submitted on the online portal.

SPECIFIC MODULES

1. Anterior uveitis - clinics and pattern recognition (CPR)
2. Posterior uveitis - retinitis (CPR)
3. Posterior uveitis - retinal vasculitis (CPR)
4. Posterior uveitis - choroiditis (CPR)
5. Intermediate and Panuveitis (CPR)
6. Recap sessions
7. Scleritis and episcleritis
8. White dot syndromes
9. Ocular imaging in uveitis
10. Laboratory investigations in uveitis - general and specific
11. Principles of treatment - 1
12. Principles of treatment - 2

HYBRID OPTION

Learners will have the option of a one-month short term observership at any one of the LVPEI campuses, for first hand experience of patient evaluation in uveitis.

COURSE FEES

- 👁️ **Online version: INR 10,000 + 18% GST (USD 200)**
- 👁️ **Hybrid version: INR 20,000 + 18% GST (USD 400)**
