Hybrid Meeting

22 May 2022

8:00am - 4:00pm IST

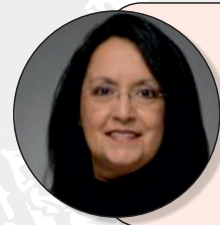

Macula and Imaging

Retinal Infections

Srinivas Satta

Anti-VEGF therapy and peripheral non-perfusion in diabetic retinopathy?

Michelle C Callegan

Targeting Immunomodulation in Bacterial Endophthalmitis

Jay Chhablani

Choroidal Imaging: Implications in Retinal Diseases

Joveeta Joseph

Next Generation Sequencing in Infections and Endophthalmitis

Gemmy Cheung

OCT Biomarkers in polypoidal choroidal vasculopathy (PCV)

Taraprasad Das

Endophthalmitis Management Study - Time to look beyond EVS

Public Health and Economics

Brijesh Takkar

The Andhra Pradesh Eye Disease Study - Insight into Retinal Diseases

Rajiv Raman

Diabetic Retinopathy - Screening Guidelines for India

Elad Moisseiev

A Cost Risk Analysis of NVAMD Treatments

New Drug Delivery Systems/ Gene Therapy

James Bainbridge

Challenges in Gene Therapy

Sobha Sivaprasad

Long-acting Drug Delivery Systems in Ophthalmology

Deepika CP

Gene Therapy in inherited retinal diseases

Surgical Innovations

ROP and Paediatric Retina

Marc D de Smet

Robotic Surgeries in Retina – The Role and Road Ahead

Sengul Ozdek

Retinal Changes in Persistent Fetal Vasculature

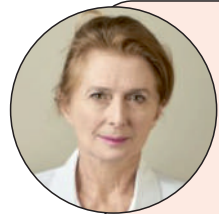

Mudit Tyagi

Glue-Assisted Vitreoretinal Surgeries

Tapas R Padhi

Real Time ROP telescreening: Can it revolutionize ROP telecare?

Claude Boscher

Endoscopic Vitreoretinal Surgeries-In PVR and Anterior Vitreous-base

Subhadra Jalali

Scleral Imbrication in Paediatric Retinal Surgeries - Revisiting the past and its role today

A conference with a focus on innovation and future directions in the field of Retina

Free registration (mandatory)
